Safe Waterproof Fabric

How do the feathers of birds repel water naturally without the use of harmful chemicals?

The RUDOLF GROUP has used this question to create BIONIC-FINISH® ECO, an ecologically safe and biodegradable waterproof coating for fabrics. All of our rain and snow gear is made with this technology to create versatile waterproof gear for all kinds of weather without the use of harmful chemicals.

Which Rain Gear is Best for Your Climate?

We have three different ratings for our waterproof products: **Puddle-Dry**, **Cozy-Dry**, and **Toasty-Dry**. Don't forget - all our rain gear is generously sized and versatile for layering. Choose the right level of insulation for you and stay dry any season!
